the principles portrayed in learning wheels are not new the ideas and concepts are not breakthrough thinking as most of us have seen these practices applied at some level throughout our experience reading this book serves only to create a clearer vision of an approach and create a new attitude regarding diversity of experience education and opinion the next logical step is to foster these attitudes within your organization as a new behavioral norm this can be achieved through specific seminars and change management initiatives designed to introduce and sell learning wheels concepts to any learning organization if your meetings are not gaining effective agreement if your team is having problems defining the correct problem before solutions if the diversity in your group is acting as a barrier to progress rather than functioning as an asset then consider using learning wheels as a tool to refocus your team

this is the first book to connect the concepts of active learning and deep learning and to

delineate theory and practice through collaboration between scholars in higher education from three countries japan the united states and sweden as well as different subject areas education psychology learning science teacher training dentistry and business it is only since the beginning of the twenty first century that active learning has become key to the shift from teaching to learning in japanese higher education however active learning in japan as in many other countries is just an umbrella term for teaching methods that promote students active participation such as group work discussions presentations and so on what is needed for students is not just active learning but deep active learning deep learning focuses on content and quality of learning whereas active learning especially in japan focuses on methods of learning deep active learning is placed at the intersection of active learning and deep learning referring to learning that engages students with the world as an object of learning while interacting with others and helps the students connect what they are learning with their previous knowledge and experiences as well as their future lives what curricula pedagogies assessments and learning environments facilitate such deep active learning this book attempts to respond to that question by linking theory with practice
