the purpose of this dictionary published jointly by kluwer technische boeken bv deventer the netherlands and russky yazyk publishers moscow ussr is to help the user read and translate englisch german french dutch and russian texts in electrical engineer ing up until now all such dictionaries were containing terms pertaining directly to electrical engineering plus the terminology used in its off sheets which have evolved into separate disci plines such as communications electronics automation etc foremost however this diction ary represents the terminology of electrical engineering while the branches are represented by their basic terms only given the relative small volume about 8000 terms the authors tried to reflect the most important terms in such areas as the cirquit theory electric and magnetic measurements ele c tric power generation transmission and distribution as well as the industrial and domestic consumption of electric power the dictionary also contains many terms relevant to high voltage technology electrical machines and apparatus electric drive as well as to the elements and structures of aerial and cable transmission lines in selecting english terms the authors were trying to reflect both their british and ameri can versions although they did not attempt to present all terminological synonyms of this kind in some cases the dictionary provides the main spelling versions

to complement the critical and objective view gleaned from the study of some sixty buildings this design manual has been developed to provide a more synthetic approach to the principles which lie behind successful daylight design these principles are illustrated with examples drawn from the case study buildings the emphasis throughout has been on practical methods to improve design rather than techniques studied for any intrinsic interest the book provides the necessary tools to assist the designer to provide well daylit interiors and shows that good daylight design is not a restriction on architectural expression but on the contrary acts as an inspiration and foundation for good architecture

this publication provides information on the impact of animal feeds on food quality food safety and the environment and thus improves the basis for managing such risks the book brings together in printed form six reviews from the fao electronic journal agrippa available online

pastoralism refers to the type of farming system which uses extensive grazing on grasslands for livestock production this type of farming covers 25 per cent of the world s land area and supports 20 million households it makes substantial contributions to the economies of developing countries although agricultural encroachment conflict and drought continue to erode this way of life this publication considers key policy issues and trends involved in attempts to improve the livelihoods of pastoralist families and communities
